

Pear Suite

Pear Suite is a SaaS platform that enables anyone to become a virtual care navigator.

Company Overview

Our platform helps care navigators assess and address the social drivers of health in a simple, scalable, cost-effective, and patient-centered way.

Problem

Organizations need a simple solution to assess and address the social drivers of health

Go-To-Market Strategy

Start with community and health organizations and then transition to health plans and providers in the fall 2023.

What Makes Us Special

AI-powered smart scripts boost data collection, while increasing efficiency
Automated outreach develops **meaningful relationships** in a person-centered way
Actionable dashboards enable resource linking and behavior change
Predictive analytics provides insights to drive preventative care
