

Helping companies with pre-hire assessments

Testlify

Abhishek Shah
abhishek@testlify.com

What's our purpose?

For SMBs, hiring is risky, biased, and stressful.
And, every hire is mission-critical.

Testlify's pre-hire assessments make hiring
informed, unbiased, and **exciting**.

Testlify is purpose-built to enable recruitment
teams to fill 10 million job vacancies by 2030.

Multiple problems, all connected

We still rely on resumes

75% of HR managers have caught a lie on a resume

Early employee turnover

High rates of early attrition resulting in bad hires

Poor candidate experience

High-touch lengthy interview method is susceptible to bias

It's an expensive affair

It costs ~\$7,645 per hire in 0-500 SMBs as per NACE

It's too much manual

Inefficient hiring process & time lost to repetitive tasks

High candidate volumes

Each job opening attracts about 250 applications

We don't assess soft skills

89% of recruiters say bad hires typically lack soft skills

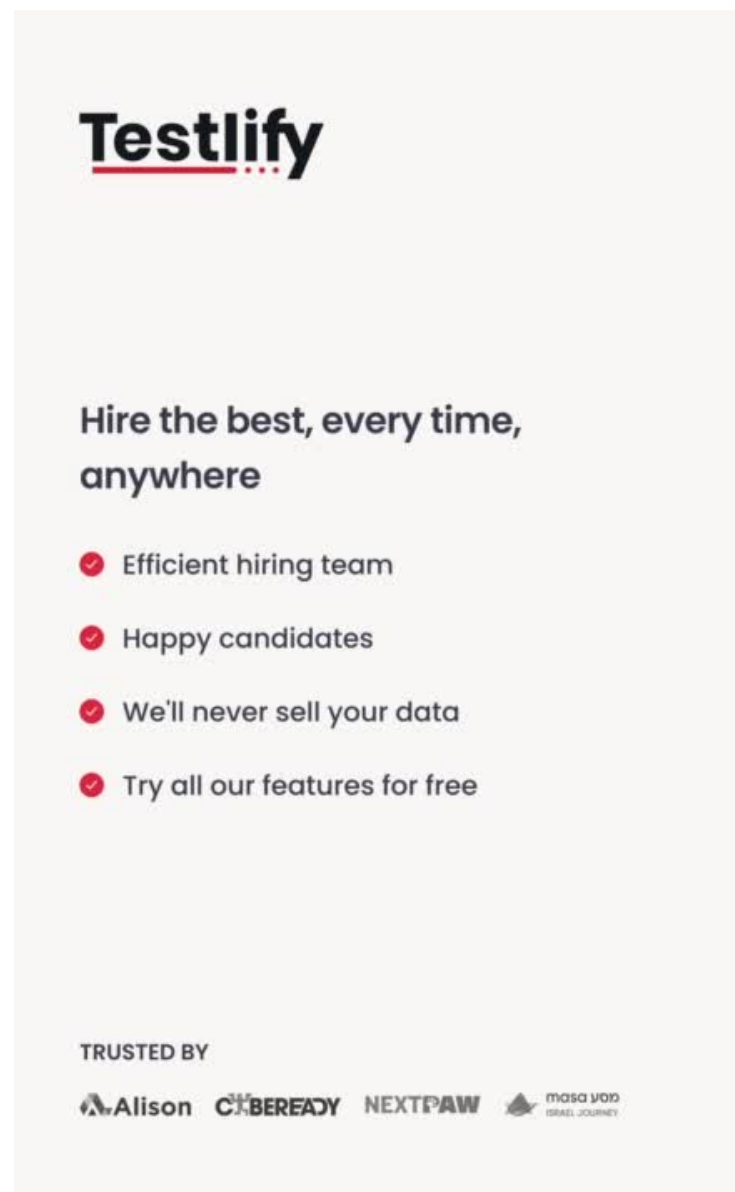

Hiring is biased

Unconscious bias happens whether we want it to or not

We need to be compliant

All regulated companies are legally required to screen

How do we solve the problem?

Engage with relevant applications that are qualified

Objectively assess skill level

Identify exaggerated skills and candidate blind spots in CVs

Full regulatory compliance

Minimize risk and hire the right candidates

SMBs love recruiting with Testlify

★★★★★ We hire more than 100 people a year. We have been looking for ways to remove bias while giving candidates the best hiring experience. Traditional hiring practices have failed on both these fronts. Testlify helped us achieve these objectives very well.

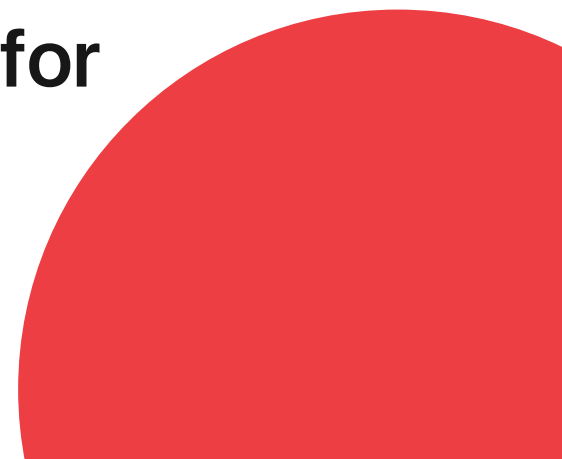

Abby Belin, Vice President, Operations at Virtual Gurus

★★★★★ Thanks to our partnership with Testlify, candidates have an easy and seamless experience completing tests. And the feedback we've received has been overwhelmingly positive. Plus, the Testlify team is incredibly responsive and a pleasure to work with.

Venkat Nemani, Data Scientist, Corteva Agriscience

★★★★★ We're using Testlify assessments to identify folks who will be a good fit for our organization. And we're using them to identify promotion opportunities, too.

Senthu Velnayagam, Co-Founder, Kimp

Candidates love interviewing with Testlify

★★★★★ The flexibility to take the assessment at my own pace and from the comfort of my home made the experience truly unique. Testlify, you're a game-changer!

★★★★★ The user-friendly interface and clear instructions made me feel confident and well-prepared. The assessments themselves were engaging and challenging, but also very fair and relevant to the role I applied for. I appreciate the emphasis on candidate friendliness.

★★★★★ The problem statements were well framed. The sequential nature of the problems helped to define a good thought process.

★★★★★ I've taken many pre-employment assessments before, but none compared to Testlify. The skills assessments were tailored to my specific job function and accurately assessed my abilities.
